A MOST DELICIOUS TONIC.  
A MOST DELICIOUS TONIC.  
A MOST DELICIOUS TONIC.  
P. S.—The following was written April 30, 1869, by Mrs. Jennie Johnson, mother of Capt. John Bull.  
Dear Sir, My husband, Dr. J. S. Johnson, was a skillful surgeon and physician in central New York, where he died leaving the above C. P. Johnson to my care. A thirteen years old boy, he had a chronic diarrhea and colic, for which I gave him your Sarsaparilla. It cured him. I have since used it in every case of colic, diarrhea, fever, and general debility. Perfect success has attended it. The cure effected in some cases of colic and fever was truly miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His words were terrible, but I believe he will recover. Respectfully,  
JENNIE JOHNSON.

Oh! how still the baby's lying,  
They whisper, "he is dying!"  
Tears and prayers cannot save her,  
She must go to Him who gave her;  
Those bright eyes must close forever,  
Those sweet lips must kiss no more;  
Fold the wee hands in her bosom,  
And thus fade our little blossom!

**TO THE PEOPLE OF ALABAMA.**  
The Executive Committee of the Democratic Party, after consultation with the representatives of the party in the House of Representatives, have decided to call a Convention, to be held at Montgomery on the first day of September next.  
We hope each county will send a full delegation of its best men.  
The gross frauds and felonies perpetrated by the party now in power, its invasion of the rights of the people, its violation of the Constitution, its repeated efforts to destroy freedom of speech as well as of the press by martial law, its imposition of a heavy and oppressive tax upon the labor and capital of the country; its unscrupulous efforts to create strife between the races—in a word, its enmity to all we love in government, and cherish in our hearts as the dearest of all, a full representation in the Convention of the Intelligence, Patriotism and Virtue of the State, as a grand impetus, to frame an indictment and arraign them before an impartial and honest people.  
The Convention itself will determine the number of votes to which each county will be entitled.  
All who are in favor of relieving the people of Alabama from the rule of the base men who now fill so many of her offices, are entitled to representation in the Convention, and in order that all possible shades of opinion may be fully represented and that the party may have the benefit of the advice and united councils of all opposed to Radicalism, we trust that large delegations will attend from each county, where it has not already been done, we advise that county

# JACKSONVILLE.

JULY 2, 1870.

**CUMULATIVE EVIDENCE.**—Speaking of the intelligence of the lower order of animals, we are reminded of a hen story, told by Mr. E. Goodie of this place, which conclusively proves that they do not only reason, but are actually fitted for and have already a smattering of the learned professions. The fox old Boop tells about, you remember, proved himself a first-rate lawyer, when he came along and everlastingly gobbled up the booty the lion and the bear were fighting over. Mr. Good's hen is a Doctor. "Some days ago a little chicken, like some of the little men of this day," essayed to accomplish too much for its capacity. It had picked up a huge worm, which quietly remarking, "not any in mine if you please," mildly, yet firmly, refused to be made a Jonah of. The prospect, being flattered for one less chicken in the world, it was in great distress when our professional hen happened along. She took in the situation at a glance, and without waiting for her instrument case, quietly "inserted her bill" into the little chicken's mouth and drew forth the worm, which she herself very kindly swallowed as her fee.

Now people may scoff at this and affect not to believe it; but we give our author. In fact this is the best substantiated one yet. We always intend to give the author after this.

The Probate Judge's License Report is in too late for this issue. It will appear next week.

The Cherokee, Centre, snake story will appear next week. Neither Hovee nor Savage told it to us.

We have been shown some ladies Gaiters made to order by Mr. McAlister and they are positively prettier than any we have seen bought from the stores. Of course they will last a great deal longer and then they cost but very little, if any more, than northern made shoes. He is a first rate workman. His shop is neat and clean, and the ladies are invited to call on him and have work done. He can be found in the office in rear of Mr. Rowan's store.

**RURAL CAROLINIAN FOR JULY.**—The great trouble in noticing the Rural Carolinian abroad, is to notice every thing worthy of mention, and yet occupy only a reasonable space. This month we give up the task in despair, and shall only select some of the principal points. The number opens with a short and interesting sketch of Mr. Peabody, illustrated with a handsome portrait of that great philanthropist. This is followed by an article on the value of Sugar Cane as a season crop. This in turn is followed by a very elaborate and interesting essay on guano and its uses. Two articles on grasses, one in favor and the other opposed to their cultivation, give light on that question. Facts and figures for rice planters is worthy of special mention, and Col. Allen gives two first rate articles on the mule and the Mississippi valley. The usual large amount of valuable correspondence, numerous contributions on different subjects, and the editor's invaluable notes and suggestions help to make up an amount of reading matter which will correspond favorably with the contents of any similar work. A fine engraving of an Ayrshire cow, a full size wood cut of the Julian apple, and a picture of the new ornamental edible plant, called the "Polymnia Edulis," are among the many elegant illustrations.

Price only \$2 per annum. Address Walker, Evans & Cogswell, Charleston, S. C.

Gen. Hutchinson has the finest field of corn we have seen. The stalks average 11 feet in height, and have from 3 to 4 ears of corn to each stalk.

The Cotton crop is not going to be so good. All right. It will only make the article more valuable in market. When will our people learn that one million bales of cotton will bring as much money as five millions will. They will never learn it.

The Garrison left here on Monday for Chattanooga. We have no complaint to make. They behaved themselves remarkably well while here, and but for the fact that their presence was an implied insult to our town, we would not have cared how long they might have stayed. The officers were gentlemen, and interfered with nothing outside their duty. They were removed on the ground that they were not wanted. Let us be careful to give them no occasion to return. Indeed the radicals would be only too well pleased to have the Democrats get up a few outrages for them. Such would go far toward affecting, favorably for them, the election and serve as a pretext for them to thwart the will of the people, should Democrats be elected to office.

Gen. Hutchinson has shown us the largest onion we have seen this year. Heals left on our table the most remarkable potato we have seen. The potato measured one foot and 4 inches around. It had 10 good potatoes growing out from around it.

**Prof. H. F. Smith** lectures at the Academy, Friday night, July 1st, on the principles of Marriage. We have seen many notices of the Press, and letters of eminent men, of the most complimentary character, dated back during a period of over 20 years—speaking of him as a Christian gentleman of high character—an accurate Phrenologist and master of Human Magnetism. We advise all to turn out and hear him, and induce him to stay another night.

# A WONDERFUL MICROSCOPE.

Rev. Daniel Wise, D.D., editor of the New York Sunday School Advocate, thus speaks of the celebrated Craig Microscope. Its simplicity, cheapness, and great magnifying power struck me with surprise. Then I was examining a fly's eye by its aid, and was struck with wonder at skill and power of the Creator which is displayed in its structure. When I saw a statement in an advertisement that the Craig Microscope magnified one hundred diameters and could be bought for \$2.50, I thought it was one of the hour, for I had paid \$30 for a microscope not long before. But now I find it to be a real valuable instrument which I should like to see introduced into the families of our readers in place of the magnifying glass which is so often used for an hour and then destroyed. This microscope would both amuse and instruct them and I advise every boy and girl who wishes to know the wonders which lie in little things to save his money until he has \$2.75, which will pay for the microscope and the postage when sent by mail.

As a holiday gift this microscope is unsurpassed, being ornamental, instructive, amusing, elegant, and never loses its interest. Agents and dealers supplied on liberal terms. A sample will be mailed post paid to any address for \$2.75, by E. L. Wood, 333 Locust St. St. Louis, Mo. June 25, 1870.

**The Trichina Spiralis or Pork Worm.** Perhaps it is not generally known that the much talked of trichina spiralis, or pork worm, was first discovered in America by Dr. R. C. Kendall, Philadelphia, Pa., with that American instrument known as the Craig Microscope, costing only \$3.75, after repeated failures to discover the worm with an imported microscope costing \$25, of better power and less reliable. This fact Dr. Kendall stands ready to prove at any time. "Craig" Microscope in next box with full directions is mailed anywhere for \$2.75, by E. L. Wood, 333 Locust St. St. Louis, Mo. Read the advertisement in this paper, June 25, 1870.

Since the use of Hungarian Balsam of life has been used in the Orphan's Home of the state of Mississippi, at Lauderdale Springs, the superintendent, Mr. S. S. Grubbery, has frequently expressed his satisfaction at its great usefulness in curing coughs, colds and diseases of the throat and lungs amongst the little ones in his charge. This remedy is the consummation of his hope and frequently cures when all else fails. July 2-4.

# Jacksonville Republican.

...tion enough in itself...  
...he has worked himself into a state of indifference as to the cost or inconvenience of doing it. He seems to care comparatively little, how heavy the tax is, or where they fall, provided he is able to knock twelve, or fourteen millions every month off the total amount of his liabilities. But we think we are safe in saying that the discontent of the country under its burden, has grown in the direct ratio of his success, and that nothing has done so much to quicken and even intensify the demand for a reduction of taxation as his last monthly statement, showing that he was contributing to the sinking fund at the rate of about one hundred and seventy millions a year. People will stand a good deal, and have stood a good deal, but they are not quite ready to fight a great war with a loss of a half a million of men, and pay off the cost of it, all within the same generation. The country consequently wants time on the debt, and will have it.—Mont Ad

The Jacksonville meeting July 4th will be the largest county meeting preparatory to the September convention. Mark the prediction. Selma Argus.

Father Grant don't vouch for a famous rat story which recently appeared in the Jacksonville Republican. That belongs to the "young un".—Selma Argus.

When the counting of the Mobile vote on the Nicholson pavement question was begun, it was discovered that the ballot-boxes had all been tampered with.—Selma Argus.

"Father" Grant has been a printer only a few months over fifty years, and don't much like a title which indicates that he is an old man. And he isn't old, but is younger than half of us youth who call him father. That's so. Selma Argus.

No. 1 SENSE.—Washington, 20th of May. Grand procession, music and oration.  
Ladies and Gentlemen decorate the graves of the Union Dead. Some Southern mourners follow quietly and lay their tributes upon the graves of the Confederate dead, who sleep there. A party of Union Soldiers follow, toss their wreaths out of the enclosure, with their bayonets, and turn the mourners out of the gates.

SENSE, No. 2.—Greenville, Ala. May 10th, 1867, 68-69-70.  
A prayer is heard, hymns are sung, a few fitting remarks spoken wreaths are laid upon the graves of the known and unknown dead. Then Southern Women who deemed it fitting, have walked from the graves of their husbands and Brothers, to scatter flowers upon the graves of the Northern Dead who have been left here. It is done in silence, in the presence of that "lawless community," who stand with uncovered heads until it is over. A prayer, and all return home in peace. South Albionian.

When an infidel was on his death-bed his confidence in his infidelity became shaken, and some of his friends advised him to hold on to the last. His reply was: "I have no objections to holding on, but will you tell me what I am to hold on by?"

The Radicals on their Last Legs.

The New York Sun (Rep) thinks it is pretty much "all up" with the Republican party, and cites in evidence the loss of Oregon, the substitution of a Democratic for a Republican U. S. Senator from that State, and the defeat of the regular Republican candidate for mayor of Washington, under the very eye of the White House, in the presence of a Republican Congress, and in a city swarming with the beneficiaries of the President.

All this following on the heels of Democratic victories in New York and Connecticut, the Sun thinks, President Grant ought to accept as an indication that within his days or those of his party are drawing to a close.

The New York Standard (Radical) says: "The Republican party in the State of New York, to-day, is a demoralized, routed rabble, without organization, and without leaders. Republicanism in New York to-day is a mockery and a by-word; in almost as deplorable a condition and pitiable a plight, as the defeated Fenians coming home from the border lines.

A honey plant has been discovered in Marion county, South Carolina, who blooms from May 10th till June 20th. It yields a large supply of the very purest honey, delicious to the palate and clear as spring water. The bush is suitable for yards, as it is quite ornamental.

REO CLOUT, and a party of other "Big Indians," have been in Washington a week or so. They demand of the government the removal of a fort in their country, which, being refused, it is said will cause a general war with the north-western tribes.

The Khedive of Egypt finds it hard to manage his foreign General, who, when from Kentucky, punched the head of his Minister of War, the other day. A fine opportunity is now offered Mrs. Harriet Beecher Stowe, of which we suppose she will be quick to avail herself.—The Free Story of Charles Dickens.

**KOSKOO!**

Endorsed and recommended by the President of the Faculty of the E. Medical College of the City of New York.

Prof. R. S. NEWTON, M. D.,  
Professor of Theory and Practice of Medicine, Cincinnati, &c.

One of the most eminent medical men of this age—well known as the author of the following FASHIONED medical works: "The Koskoo," "The Koskoo," "The Koskoo," &c., in December number of American Medical Review—page 278, says:

"Among the more recent efforts to introduce a new preparation compounded by J. J. LAWRENCE, M. D., of Norfolk, Va., which is furnished to the profession and the public in any desired quantity. We recently examined his Laboratory, and became fully satisfied that all his work is done in the best manner, by the most approved process, and from the best materials, giving as a result a medicine meeting the requirements of the PHYSICIAN and the PUBLIC."

**Koskoo Cures Serofula in its Worst Form.**

From A. W. MILLS, a prominent and well known merchant of Norfolk, Va.  
No. 11 Main St., Norfolk, Va. Sept. 1869.

Dr. Lawrence—Dear Sir: Your Koskoo has worked wonders in my family. My daughter has been a sufferer from Serofula since childhood. She lost thirty-one pieces of bone from her ankle, several from her arm, besides having ulcers in several parts of the body. Whilst in this condition she commenced taking your Koskoo—it acted like a charm on her; under its use the ulcers gradually healed, and her general health much improved. It certainly saved her much suffering, and perhaps her life. I regard Koskoo as a specific for all serofulous affections. Your Koskoo also cured my wife of dyspepsia, from which she suffered greatly. She is now in better health than she has been in five years.

With the highest regards,  
I am, Sir, your obedient servant,  
A. W. MILLS.

Roscoe is embraced by the best physicians everywhere. Read the following from Dr. Lawrence, a successful practitioner of many years standing in the Old North State.  
Rocky Mount, Edgecombe Co.,  
September 17, 1869.

Dr. J. J. LAWRENCE—Dear Sir: I have used your Concentrated Fluid Extract of Koskoo in my practice with the happiest results. I find it to be a powerful Liver Invigorator, Blood Purifier, and Nervous Tonic. In all diseases of the Liver, Serofula, Syphilis, and Nervous Affections, it is a remedy of immense value; in fact, in almost every variety of Chronic Disease, it is to be resorted to. Hoping you may meet with the success which you deserve as a manufacturer of reliable medicines, I am, Sir, with much respect,  
Your obedient servant,  
R. C. TILLERY, M. D.

**Koskoo Cures Chronic Rheumatism**

Norfolk, Va., Sept. 7, 1869.

Dr. J. J. LAWRENCE—Dear Sir: My son has received so much benefit from your wonderful Koskoo that I cannot refrain from expressing my gratitude. I had tried almost everything without benefit. I believe, I will say, that your Koskoo is a true, reliable remedy for the disease from which he has suffered, and so far as I can learn, has never failed. I have used it only twice, the immense amount of suffering that he has undergone, and a remedy as Koskoo—that remedy cures. The great benefit of your good is now doing among us is inestimable.

With much gratitude,  
I am, respectfully yours, &c.,  
Mrs. M. K. A. SELBY.

Read the following from Mr. Wampler, a prominent Hardware Merchant of this city:  
No. 13 Market Square, Norfolk, Va.  
October 13, 1869.

Dr. Lawrence—Dear Sir: To the large number of testimonials which you offer of the great efficacy of your Koskoo, I take pleasure in adding my own. I suffered greatly from Nervous Debility, Headache, Loss of Appetite, &c. Two bottles of Koskoo restored me to health.

Yours truly,  
W. H. CHRISTIAN.

From Dr. Lloyd, a Physician of Large Practice.

Grant Bridge, Va., Oct. 8, 1869.

J. J. LAWRENCE, M. D.—Dear Sir: I cheerfully endorse your Koskoo as being a most valuable preparation. Upon examination of the formula, I find each ingredient highly extolled by our best and most progressive clinical investigators. I have tested its effects in my own practice, and have no doubt in recommending it to my opinion. It is the best compound of its class ever put before the public—exceeding by far all the various compounds of sarsaparilla, &c., ever invented. It is a direct Nervous Tonic, and invigorator of the animal forces, aiding digestion and assimilation, and thereby producing healthy blood, which should be the basis of treatment in all chronic diseases. Hoping you will reap the reward you deserve from the public as a benefactor.

I am, Sir, yours truly,  
CHARLES LLOYD.

After reading the above high recommendation, I cannot reasonably hesitate to give the KOSKOO a trial.

M. HOUSE,

Counselor at Law,

STATE AND UNITED STATES COURTS,

Office, No. 78 Nassau Street,  
NEW YORK.

Notary Public and Commissioner for all the States.

I have been fifteen years in the divorce business, ten years in the office. I now occupy. Having been consulted by over fifty thousand persons on the subject of divorce, I refer to my numerous clients for whom I have obtained divorces. I am connected with the most expert and successful Divorce Lawyers in the States of New York, Indiana, Illinois, Connecticut and other States where laws are liberal on the subject, and parties residing in any State or County wishing divorces would therefore do better to apply through me than elsewhere. I obtain divorces for desertion, adultery, drunkenness, non-support, &c., without publicity and without charge unless I succeed. Advice free. I call attention to the fact that the Supreme Court of the United States has lately decided that divorces obtained in one State are perfectly legal in every State. In all cases where an advance is paid on a case for my security, I will return the money if I should fail in obtaining the divorce. Every divorce obtained by me is warranted perfectly legal everywhere. Call on address, M. HOUSE, Counselor at Law, 78 Nassau Street, New York City. March 1870.

# JACKSONVILLE.

JULY 9, 1870.

Two pic nics have occurred within the past week. On last Saturday the young people had a fine time at Shenecks Springs. On last Wednesday the old people, (we have mighty good old people in Jacksonville) not to be outdone, got them up one. The dinner is described as simply splendid, and we are told the old men sung "I wish I were a boy again" and the old ladies (Lord love them) joined a chorus of "When the boys went sparring." Any flirtations did you say? Why bless you man, there was no end to them.

They would have been there yet; but for the fact that the children needed attending to.

**Mr. Editor,**  
I see in a call posted around for a Republican Convention, the name of J. L. Hoke as one of the signers. As I am the only white man in the county bearing the name, it may not be out of place for me to state that the person referred to is not myself. He is most probably a negro, heretofore known as Jim Hoke.

We cannot forbear a compliment to Mr. J. B. Turnley, one of the most enterprising young merchants in Alabama, for his liberality displayed in the Great Democratic Mass Convention of this County, on the 4th inst. A proposition was made to print 500 or 1000 copies of the proceedings by Judge Walker, who made the tender to pay one half the cost. No sooner said than the young man above referred to, replied "I will pay the remainder." This was both generous and patriotic, and should be remembered by the Democracy of Calhoun.

We are requested by the Republican Committee to state that there will be a meeting of the Republican party at this place, on the 6th of August next, for the purpose of electing delegates to attend the State Republican Convention, at Selma on the 30th of that month.

We will publish about the Pen- vine, and the Snake, next week.

We are in receipt of the July number of the Eclectic Magazine. Will give it such an extended notice next week, as it deserves.

We omitted to mention last week the addition of another Merchantile establishment to our town. Messrs. Morris & Alexander have received a magnificent stock of Family Groceries and Furniture, and from the popularity of such gentlemen, who can doubt but that they will build up an immense business.

Among the Summer visitors to Jacksonville, we observe the family of the Rev. Mr. McVoy of Selma, and Col. Perine of Cahaba, with his wife and accomplished daughter. Other families from South Alabama have come in recently. There is room for more.

The Republican will be furnished for the Campaign ending with the State Elections in November for the low price of 50 cents.

The Territory of Idaho has gone Democratic. The Democratic Member to Congress was elected by nearly 1000 majority. And still they come.

Our friends will please indulge us this week, for the appearance of the *Republican*. Domestic affliction called off the attention of both the Senior and Junior Editors. We promise it "red hot" from now until the end of the Campaign.

We invite attention to the advertisement of Lookout Mountain Educational Institute. The fame of Lookout, near Chattanooga, as a Summer Resort, is well known. When all the advantages of a healthy Summer resort and fine educational facilities are united, the choice is apparent. This is one of the finest Institutes in the South—an excellent Faculty, and deserving all the patronage our people can confer upon it.

Subscribers complain that men take their papers out at Alexandria and other Post offices and do not give them to them. A man that would steal a newspaper would steal \$3. Now if you are a subscriber to this paper, just lay it down, or hand it over to the man it belongs to.

We have several times recently eaten at the table of Mr. J. D. Hammonds, the gentlemanly proprietor of the Jacksonville Hotel, and are constrained to say, that a better bill of fare could not be presented in the State. The hotel has a very cozy parlor and a magnificent piano, where guests can amuse themselves.

We have travelled some (without boasting) but in all our wanderings, we have never come across a finer and more cozy Ice Cream Saloon than that kept by Joe H. Sargeant. His Ice Cream is deliciously flavored and almost too solid to cut with a knife. The Saloon being at his private residence, the ladies need not hesitate to go, and partake. Indeed as soon as they find out where it is, they come go. We have noticed crowds every day in the week going to the Saloon. A good place to go sparring boys.

### A Prospect of War.

Intelligence from Europe is of a grave character, and in a certain contingency war between France and Prussia is inevitable. Spain wants a ruler, and a Prince, who seems to enjoy her destinies, has invited Leopold, a son of the Prussian House of Hohenzollern, to become her sovereign. Leopold has signified his assent, and the French Government are told that Serrano, the Regent, and his Cabinet approve the selection of Leopold. Their influences, it is claimed, will secure the requisite number of votes in the Cortes, and Serrano will then propose a Spanish king. If this programme, which is the invention of the inventor of the astute Bismarck, shall be carried out, war must ensue. France has charged the minister of foreign affairs, who presides in her northern boundaries, and she will not tolerate the extension of Prussian power and influence in securing Spain as an ally. Indeed, the French minister of foreign affairs, who presides under that designation, has publicly de-

clared that the accession of Leopold to the Spanish throne will be a cause of war, and this is endorsed by the French press, and the French government has refused only by the refusal of the Spanish Cortes to confirm Leopold as the choice of the nation.—*Courier Journal.*

### THE LEON LOOSE.

Frightful Scene after a Circus Parade.

We learn from a private dispatch from Huntington, the particulars of an exciting scene there, which took place last night. A circus showed there in the afternoon, and in the morning there was a grand parade through the streets. The royal Arabian flow, an animal of great size, which was called the "king of the beasts," the eagles, attended by his keeper or procession of these street displays, exhibited signs of anger while being led to his cage after the procession had returned. At an unguarded moment, the animal, when the keeper was off his guard, exhibited the beast sprang upon him and took him to the ground with frightful force, seizing him by the shoulder and arm. The

may be involved. Almost immediately the bystanders rushed up and seemed to have acted in a spontaneous way to draw their neighbors and shot in huge clouds of beast death. The manner was recent and not premeditated. — *Nashville Banner of 1904*

**GRANT AS CULPITY AS WHITEMORE**

The *New York Sun* (Rad.) declares that the House must follow up the principle laid down in the rejection of Abbot's more life.

There is a man who bestows an office of honor on another person in consideration of money or valuable present given to him. It is the principle of the House that the House will do all in their power to exclude such a man from office.

It insists that the House shall not stop at the simple refusal to the case of Whitemore, but give it a wider application. The following extract will show what sort of game the *Sun* proposes they shall hunt.

It is not notorious that the President of the United States has received, and presents in money, houses, lands, and in other forms, from certain persons and

their friends and in consideration thereof, they have made the offices their friends important and lucrative offices? Of the reception of the presents and the removal of the offices there is no doubt, but had they not been made openly and sensibly before all the people, if there be any doubt that the people will not be so easily or partially in consideration of the presents, is it not the duty of the House to inquire into the matter?

Mr. Young: The Crossicks of the United States is a federal question. When a young woman feels a tender passion for a young man, she looks him at the rear end, and she says to herself, "I will marry as follows: 'The goodness of my husband in your countenance is sufficient assurance to me that you are capable of ruling and governing me.' The goodness of my husband's eyes encourages me to hope that you will make a good husband. It is just as good that I have taken the resolution to marry him, as if I had taken the resolution to accept me for your spouse. She then addresses the father and mother, and solicits their consent to no marriage."

to leave the house, and such conduct is usually crowded with success. The parents of the young man never permit the potatoes to grow, so that if they persist in their state of belief, they by so doing they would bring down the vengeance of heaven upon their heads.

Germany has been visited by a dread-  
ful storm. The disasters are humanitar-  
ian. There have been no deaths, but a  
large number of persons have perished.  
At Grosbun (Siebenburgen) the rain was  
so heavy that houses and their inhabi-  
tants were carried away by the current of  
water. The rain has been the subject of  
the flood hundreds of cattle, interspersed  
with human corpses and the ruins of  
houses, were discovered in the slime-  
more than forty dead bodies have been  
found. The rain has been the subject of  
the sixty families composing the com-  
mune scarcely ten remain alive. At  
Nagy-Kun eighty houses were carried off  
by the waters. Sixty persons were  
killed. The disaster has been the subject  
of nothing of the loss of property, which  
is exceedingly great. At Ebfurt, the light-  
ning struck several objects, notably the

**LEAVE A NAME BEHIND.**—Thousands live, breathe, move, pass off the stage of life, and are heard of no more. Why? They do not a particle of good in the world. Not a word they spoke could be recalled, and so they perish—these light-went down in darkness and they were not remembered more than the insects of yesterday. Will you thus live and die, oh man, immortal live for something. Do good, and leave behind you a monument of virtue which the storms of time can never destroy. Write your name in kindness, love and mercy, on the hearts of those with whom you come in contact year by year. You will never be forgotten; for good deeds will shine as the stars of heaven.

[Special Correspondence of the Register]  
SAN FRANCISCO, June 22, 1870.  
DISCOVERY OF GOLD IN CALIFORNIA.

That there are more things in heaven and earth than our philosophy dreams of, is proved every day to an extent that must make the wisest amongst us painfully conscious of ignorance. Prospecting for gold in California is conducted on recognized scientific principles. The searcher after precious metals, carefully studies the lay of the ground, the position of water courses, the indications of hidden channels, and having noticed these, sinks his shaft or drives his tunnel with the expectation of striking the auriferous deposit. But a Mr. Mallory, within the past week shown as it is possible to discard the usual method of prospecting by trusting entirely to the directions of a hazel wand. Some seven years ago Mallory took up his residence in a mining district near Yreka, and having put up a cabin began, to wander through the neighboring mountains with a forked piece of stick in his hands. A good many people thought he was crazy, but others of more experience, knowing that Mexicans in the southern counties always find water by its method, told what was his object, and so his movements were watched with great interest. At length the rod indicated to him that a saddle shaped bed of silver ore, a half mile in extent lay snugly wrapped up in an adjoining mountain, and he at once commenced opening a tunnel to it. For seven long years he labored patiently, constantly encouraged by the workings of his simple diviner, and on the tenth of this month his perseverance was rewarded by striking the golden pommet of the saddle, the first substantive sign of the immense wealth of the hill. The rock crushed in a mortar has yielded an average of \$17 to the pound.

#### THE CURIOSITIES OF MINING.

would form a very readable paper especially that portion of it describing the manner in which some of our principal mineral lodes have been discovered. The new Almaden quicksilver mine was first found by an Englishman, who noticed that the Indians resorted to a certain place a peculiar red stone with which they painted their faces, was led to examine the deposit, thus discovering the richest richest mass of cinabar in the known world. The Redington quicksilver mine, which was described in the Register a few weeks ago, was accidentally discovered by laborers making a road near the locality whose curiosity being excited by the sight of some stones they were lifting broke off a piece and sent it to a geologist with a request that he would tell them what it was. The famous Eoarth quicksilver mine, in White Pine was shown to the men by Indians, who brought pieces of native silver to a camp of loggers, and offered to tell where they got it for a certain quantity of flour and tobacco. The celebrated Blue-Gravel lode, one mile of which yielded, from 1854 to 1860, the sum of \$5,995,600 was found by a man who was digging a well, and the Butte mine, in Sierra county, from which \$1,345,000 was taken in four years, was struck by a hunter, who sitting down to rest, noticed pieces of disintegrated quartz lying around, which were richly streaked with gold. Nor have all the great prizes yet been found. Some three weeks ago two Chinese came to Hubbard and Andrews, bank in Auburn, Placer county, with a quantity of solid gold slugs, for which they obtained coin. A few days afterwards they returned with more, and later still with a chunk worth five hundred dollars. All these lumps had small pieces of quartz sticking to them, had never been in the fire or touched by quicksilver, and it was plain that they had been out of a bar of gold in its native State. Last week they sold a lump worth hundred dollars to a storekeeper in the vicinity, and they have evidently discovered a slab of the precious metal imbedded in some quartz boulder or ledge.

**FALLS IN SAN DIEGO.**—A gentleman connected with the surveying party of the Memphis, El Paso and Pacific railroad, says that he recently visited a remarkable waterfall, known as the "Truman Falls," on the headwaters of the San Diego. He describes these falls as being two hundred and twenty-five feet in perpendicular height, the stream, as it dashes over the precipice, being ten feet in width. The water falls the whole distance at a single leap, and presents a magnificent scene. Above the falls the stream runs for some distance through a beautiful valley. The scenery of that region is described as equaling in grandeur and beauty anything ever seen, except only that of peerless Yosemite.

**ED-YIELD.**—We learn through Mr. Ed. Korten, of Clayton, that Jasper Kneibrought of Ogletown county, made fine wine bushes of one acre and of land this year. It was matured with 200 bushels of cotton seed.

**THE ST. CLAIR COUNTY, ALABAMA, YENITZIA.**—We learn from a gentleman just from Alabama that the war between Sheriff Brown and posse, and Jack Springfield, culminated in an engagement at Asheville, the county town, last Sunday. About one hundred men on each side were engaged. Jack Springfield and his brother, were desperately wounded, together with eight or ten others. The Springfield party were arrested. Both the leaders are radicals. —*Rome Daily.*

**Koskoo Cures Scrofula in its Worst Form.**

From A. W. Mills, a prominent and well known

merchant of Norfolk, Va.

No. 11 Main St., Norfolk, Va., Sept. 1869.

Dr. Lawrence—Dear Sir: Your Koskoo has

done for me what no other medicine could. My

daughter has been a sufferer from Scrofula since

childhood. She lost thirty-one pounds of

body, and her hair fell out. Her face was

swollen, and she had a great deal of pain in

the joints of her arms and legs. She was

very weak, and her appetite was gone. I

tried many different medicines, but they

did her no good. I then tried your Koskoo,

and in a few days she began to eat and

sleep, and her appetite came back. In a

few weeks she gained twenty pounds, and

her hair began to grow again. She is now

perfectly well, and I am very much obliged

to you for your Koskoo. I am, Sir, very

truly yours, A. W. MILLS.

## NEW ENGLAND REBELLION

**Connecticut Declares Her Sovereignty and Independence.**

**The Gauntlet Thrown Down to the Radical Congress.**

The States right position has at last been taken by a Yankee State. Connecticut has raised the flag of rebellion to the acts of Congress, and we now have a prospect of seeing the constitutionality of the 15th amendment tested in the Supreme Court of the United States; and will soon know what States of the North will take nerve from the action of the

little "Nutmeg" State; and fall into the line that she has so gallantly taken. Will New York, with her solid columns of one hundred thousand Democratic majorities, come to the rescue and hurl defiance and death, if need be, into the ranks of the infamous party who now trum-  
rum rough-shod over the constitutional

rights and liberties of the people. This proposition has been taken at the right place, and we hope that the ball will be kept in motion. The following from the New Haven daily *Lever* tells the story, and we give three cheers for the Democracy of Connecticut:—*Selma Times*.  
The great battle of liberty on this con-

...tinent was fought Wednesday forenoon, in the Connecticut House of Representatives. The "Fifteenth Amendment fraud" was on trial. The indictment of the American people read. The arraignment made. The argument powerfully urged. And the decision rendered and placed forever on record. Con-

...and placed her on record. Con-  
nected is a white man's State, and it  
means, to remain so. She refuses to  
conform her constitution and laws in the  
Negro programme of the Federal Govern-  
ment. The Radical proposition to strike  
out the word "white" from our consti-  
tution was voted down. The powerful  
arguments made by W. W. Fisher

arguments made by Wm. W. Eaton, Wm. J. Hemersley, T. E. Doolittle, and others of the Democratic side, were only answered by such declaratory statements of the Radicals as that "We are a nation," "The Fifteenth Amendment is a foregone conclusion," "The war wiped out the last vestige of State rights," "It is a nation with a government of its own."

and so forth and so on. But all these bugaboos—these displays of "Gestapo," "proletariat," "dictatorship," "democratic side," They stood by the principles of Roger Sherman and Oliver Ellsworth, and bravely battled for the right in their

ance of all the appeals made to their fears, and all the changes rung on the words "loyalty," "nationality," "Congressional power," "centralized government," and the like, heeding no more the terrifying spectres thus harrowed up than if they had been so many rush lights standing in the path of a tornado. It

was not in the power of Congress, not even when backed by three-fourths of the State, to change the Constitution of the State of Connecticut, or the form of her government, without the free consent of her people. This was the impregnable position of Mr. Eaton, which was not even assailed, much less combatted.

by the Radical side of the House. The "Fifteenth Amendment" had not received the approval of three-fourths of the States. Military districts had to be appointed to make up the required three-fourths, and no man would say that a ratification by such districts was such an approval as the Constitution required.

states that were not sufficiently States to be entitled to recognition by Congress could not be counted as ratifying a constitutional amendment. And Grant's proclamation was a nullity without the necessary ratification by three-fourths of the States. Connecticut was not called upon to do what Congress was impotent

to do—make her any less a State, than she was already in the Union. It was not for us to emasculate her constitution—strike out one of its fundamental provisions—at the dictation of a Radical Congress.

The right to regulate her suffrage was one of the residuary powers that be-

longed exclusively to the States. No forced amendment to the Federal constitution—no fraud or usurpation on the part of a Radical Congress to accomplish such a result—could change the status of the question in this State. It was in no sense an amendment to the constitution. "To amend" was to remove what was

superfluous or faulty; to correct, to supply the deficiencies; and not to destroy the fundamental laws as it stood. The Fifteenth Amendment, so called, was destructive of every principle of free government embodied in the constitution. It struck at the residuary power of the States—the powers approach- ing

declared as reserved to them; and over which neither Congress, nor any other State, or number of States had or could have any control: If Congress can in this way strip Connecticut of her right to regulate suffrage and make it a Federal right, it can strip her of every other right, every other attribute of national-  
 10

and leave her without a vestige of a constitution remaining. These were the arguments urged by Mr. Eaton, Mr. Hamersley, Mr. Doolittle and others, and to the honor of the Democratic members of the Legislature, they stood by them—making the first great fight against the Legislator's Amendment.

GOING FOR THE C. Bs.—The Op-  
lika *New Era* a Radical paper of the  
SMITH wing, goes for the 'carpet-bagger'  
as follows:

The honest masses of the Republic  
ans in the State will not co-operate with  
Sibley, but everywhere they should de-  
nounce him "and his kind" in the most  
unmeasured terms as disturbers of the  
public peace, and emissaries of evil sen-  
sation among us to fatten on the misfortunes of  
a conquered people, and slander the

peaceable and quiet citizens of Alabama. An avenging Nemesis will surely overtake these filthy "birds of passage." "Filthy birds of passage" is good. How do KEEFER and COON like that?

CHICAGO, July 6.—During

recent drunken quarrel at Alton, Ill., Sunday last, a man named Craig, shot and killed another man named Brown, killing him instantly. The murderer, Fred Brown, was afterward captured by the police.

st Peoria.

# JACKSONVILLE

JULY 23, 1870.

Capt. James Crook of this place, has just received a fine English Setter, by express. He is of the finest stock in Lord Derby's Kennel.

The young people had a very pleasant party at the residence of Mr. R. D. Williams, on last Wednesday evening. The "Woods" describe it as being the most delightful of the season.

On Tuesday the "flat" treated herself to a picnic at Shuck's Springs. Of course there was an abundance of the good things of this world on hand, and much enjoyment. It was mostly composed of the "married and settled," who by the way, seem to be leading off over the young people, in their species of enjoyment.

Mr. J. W. Whitehead exhibited to us, the other day, a lot of French Towel wheat, raised from seed given him by James J. Miller, Editor of Farmers Home Journal, published at Lexington Ky. which is the finest we ever saw.

From a half gallon of wheat he raised 41 bushels—equal to about 60 bushels to the acre. This wheat would have just walked over the track for the prize offered by the Agricultural Society for the best acre.

Jacksonville can't support a telegraph office.—Oxford Star.

And Oxford don't support a newspaper.

Another CONSPIRACY! LEVI KILGORE, (Hounded us by one of the "Grand" "murderers.")—Judas betrayed his Lord and Master. Arnold betrayed his country. Iago betrayed his friend. For what? Money and position.

For what then did the carpet-bagger and scoundrel betray his RACE?

O Sir, thou brilliant orb and jetter, answer.

The Spring fights have fairly opened and we are having "lively times" every few days now. His Honor, the Mayor, is having a pretty good run of business, and all "goes merry as a marriage bell" to the lovelies.

The Masonic Editor of the Garden Times leaves us to infer that Bro. Horn was the part of Bro. Gibson (who was fabled at the Walnut Grove dinner).

May we affectionately enquire after Bro. Horn's health?

One of our most industrious friends being out of employment for a few days, got up all the old case knives, scissors, etc. that he could find and was "trimming" with all his might when we passed him Wednesday. Ku-Klux been around wagons. They don't like loafing.

Go SEE B. WOODWARD'S Store. They are selling Goods Cheap for CASH, or Thirty days to prompt men.

They have just received a large lot of Superior Tobacco.

We were delighted to welcome in the Republic office on Tuesday, Col. Joe A. Francis, Editor of that exceedingly fine paper, the Garden Times.

Col. Francis has been the subject of much gossip. Well Joe we wish Garden may be all that even your fertile imagination can invent for it. Jacksonville and Garden can be neighboring cities—never rivals. We leave the story part of it between you and Rome.

Extraordinary Cuts.—Mr. P. M. Watson, informs us that he had a volunteer stalk of oats which came up in the midst of thick wheat, which had four large and one small head—the largest had 255, next 229, next over two hundred and smallest 151. Not having matured when the wheat was cut he transplanted it in his garden, where it fully matured. This is the largest yield from one stalk that we have ever heard of.

Some little excitement was created on Saturday night by a rumor which spread to the effect that the negroes intended to attempt a rescue of a negro confined in jail charged with complicity in the late Negro Riot at Cross Plains. Our young men were quickly on their arms and on the streets to prevent such an infraction of law. Had Sambo tried to game on, he would have been severely received. The apprehension proved to be unfounded, however, and next morning it was ascertained that they had only assembled to hold some sort of a league meeting, and had brought their arms along to defend themselves against some imaginary danger.

Mr. Jos. McElrath informs us that he found a pea vine coming up in his cotton patch. He took good care of it, and when he gathered the peas, it yielded 1800 pea hulls which averaged 14 pounds to the hull.

Some young men were preparing to go to bathing in the Coosa near Centre, Ala. As one who had a wooden leg was passing a bush, a monster Moccasin dashed at him and struck its pangs against his wooden leg. With great presence of mind he gradually retreated to the water's edge, carefully keeping the wooden leg next the snake, it continuing to strike until he reached a paddle. With this weapon he struck at the snake's head, but it slipped from his grasp and again left him to the mercy of the monster. The snake continued furiously to strike the wooden leg, which the young man now turned into a weapon of defence, until the snake was brought and banded him, with which the snake was slain. Now if this young man had not had his leg shot off in the war, his family would now have the mortification of knowing he was killed by a snake.

Old Brown, is said, to have beat the train to Talladega by at least a week, after the big race at Cross Plains.

Such a "getting up stairs" you never saw.

William's Communication on Humors in our next. It has been tried and proved out.

**MORE OF THE RIOTERS.**—On last Thursday a squad of ten Soldiers and a Sergeant, with Bailiff Stewart, came in from Cross Plains, guarding two brutal looking negroes, said to be implicated in the riotous attempt to murder women and children at that place. They were committed to jail to await an investigation, which we presume was had yesterday, (Friday) That was the day set for a hearing.

Citizens who accompanied the authorities, stated that positive and direct evidence had been elicited proving that the riot was but a part of a deep laid and long discussed conspiracy to burn the town and murder its citizens. This with the facts already laid before the public makes something more of it, than that harmless "signal gun" fired off by that "accommodating young colored man," mentioned in the justification article in the negro organ at Selma.

**CROSS PLAINS, ALA.,** July 15th, 1870.

DEAR SIR, In copying the resolutions of the recent meeting here, I overlooked one of the most important resolutions and I beg you will please insert, in your next issue, it was Resolved, that the thanks of this Town and community are cordially tendered to the four young men of our place, who gallantly protected and defended the ladies and children from the murderous assault of the negroes in the recent disturbance here, and that too much cannot be said in their praise.

Yours Truly, L. FERGUSON, Secy.

**IMPORTANT TO DISTILLERS.**—The undersigned has received a decision from Commissioner Delans on the subject of the distillation of fruits, which is too long to publish entire and too complicated to admit of a synopsis. It will be well for Distillers in this county, before going to work, to call on him and see the decision and be governed thereby, that they may avoid any trouble which may arise from an unintentional infraction of the law on their part.

He will take pleasure in explaining it to all interested.

ISAAC FRANK, Asst. Assessor.

**TO HOME HUNTERS.** The undersigned offers for Sale, a valuable Farm of Two Hundred Acres, lying five miles East of Jacksonville, Ala. Eighty acres of it are cleared. The balance is good woodland. On the place is a good orchard of peach, apple, cherry and pear trees. There are also grapes and raspberries, and as good free-stone springs and well waters as in the State. Land highly productive. Will sell reasonably.

P. S.—Also have for sale 2 yoke of fine oxen and a wagon.

**The Trinchina Spirals or Pork**

Perhaps it is not generally known that this meat is called of trinchina spirals, or pork worm, was first discovered in America by Dr. R. C. Knodell, Philadelphia, Pa. It is that American instrument known as the Craig Microscope, costing only \$2.75, after repeated attempts to overcome the worm with an imported microscope, costing \$50, of feeble power and less reliable. This fact Dr. Knodell stands ready to prove at any time. Craig's Microscope in next box with full directions is mailed anywhere for \$2.75, by Dr. H. Bess, 213 Locust St., St. Louis, Mo.

**A WONDERFUL MICROSCOPE**

Res Daniel Wise, D. D., editor of the New York & London Advertiser, thus speaks of the celebrated Craig Microscope:

"Its simplicity, clearness and great magnifying power, struck me with surprise and admiration. Examining a fly's eye by its aid, and was struck with wonder at skill and power of the Creator which is displayed in its structure. When I saw a statement in an advertisement that the Craig Microscope magnified one hundred diameters and both amateur and expert, I decided it was worth a microscope not long before but saw I could be a really valuable instrument, which I decided to see introduced into the families of our readers in place of the manifold useless toys which place for an hour and then destroyed. This microscope would both amuse and instruct them and I advise every boy and girl who wishes to know the wonders which lie in little things to have this money well laid out. It is highly recommended by me for \$2.75, by Dr. H. Bess, 213 Locust St. St. Louis, Mo. June 25, 1870.

**Beef Market**

The undersigned will have Beef and other fresh meats in market on Monday

Subscription of \$25,000,000 of  
the new Panama Canal  
Stocks, New York.

Gadsden the Residence of two of the  
Heirs.

Two of the descendants of Robt.  
Edwards, living in Gadsden, have  
received information that a large  
amount of valuable property situated  
in the city of New York, on  
Canal street, estimated to be worth  
\$25,000,000, will come into the  
possession of heirs of said Edwards  
upon their proving their identity.  
Their property consists of estate  
granted by King George of Eng-  
land to Robert Edwards, about the  
same time the grant was made to  
Trinity Church, which to-day,  
by reason of that grant is the  
wealthiest ecclesiastical corporation  
in the world.

Robt Edwards leased the prop-  
erty, as did the trustees of the  
Trinity grant, for ninety-nine years.  
This lease has expired and the per-  
sons now in possession of the prop-  
erty recognize the fact, and will be  
compelled to give possession when  
the heirs prove their identity.

Gen. Edwards of LaGrange, Ga.,  
known over the Southern States, as  
great road man, has employed  
Ben Hill, of Georgia and Judge  
Bingham for the heirs, and they will  
be understood, immediately institu-  
tute suit for possession. We learn  
further that the occupants of the  
property are so well satisfied that  
the title of the heirs of Edwards is  
valid they will not contest it, except  
so far as compelling them to prove  
themselves true descendants of said  
Robt Edwards.

This is indeed gratifying news to  
the many friends (of which the edi-  
tor of the Times is one of the best)  
of the lucky heirs. It will bring  
at least one or two millions into our  
midst. Our only fear is that the  
heirs will not be able to prove their  
identity—being a hard matter  
for any of us in this republic of ours,  
where we don't run on "blood," to  
prove that we descended from any  
certain person who lived a hundred  
years ago.—Gadsden Times.

FARMERS have been blessed with  
good seasons, and the crops are  
reported to be growing, readily.  
The corn crop is almost made, and  
should no serious hindrance occur,  
this "staff of life" will be the largest  
yield for a number of years. From  
Chattanooga county we have flattering  
reports of the crops, and also from  
Polk county Etowah and Cherokee  
counties, Alabama, will make better  
crops this year than they have since  
the war. The cotton is looking well  
and growing finely. We have  
heard of several bowls open—Home

### THE "PAIN KILLER."

The foreign and domestic demand for Perry  
Davis' Son's great medicine—the Pain  
Killer—has increased so largely as it has  
been of late, and we think the time has  
arrived when the declaration may be made,  
without the possibility of refutation, that  
the city of Providence in the State of  
Rhode Island, of the United States of Amer-  
ica, has furnished the entire habitable globe  
with a medicine, which, in point of univer-  
sality of demand, extent of usefulness, com-  
plete efficiency for all the purposes for  
which it is designed and wide spread, en-  
dorsing popularity, has never been equalled  
by any medicine in Europe or America.

The universality of the demand for the  
Pain Killer is a novel, interesting and sur-  
prising feature in the history of this medi-  
cine. It "lames has gone out" into every  
quarter of the habitable globe. The Pain  
Killer is now regularly sold in large and  
small quantities, not only to the general  
agents in every State and Territory of  
the Union, and every Province of British A-  
merica, but to Buenos Ayres, Brazil, Uruguay,  
Peru, Chili and other South American States,  
to the Sandwich Islands, to Cuba and other  
West India Islands; to England and Conti-  
ental Europe; to Mexico, Central America,  
Yucatan and other Central American States,  
to Australia and California, Rangoon and other  
places in India. It has also been sent to  
every part of the world, and is now being  
sold in every part of the world, and is now  
being sold in every part of the world, and is  
now being sold in every part of the world.

It is indeed gratifying news to the  
many friends (of which the editor of the  
Times is one of the best) of the lucky heirs.  
It will bring at least one or two millions  
into our midst. Our only fear is that the  
heirs will not be able to prove their identity—  
being a hard matter for any of us in this  
republic of ours, where we don't run on  
"blood," to prove that we descended from  
any certain person who lived a hundred  
years ago.—Gadsden Times.

FARMERS have been blessed with  
good seasons, and the crops are  
reported to be growing, readily.  
The corn crop is almost made, and  
should no serious hindrance occur,  
this "staff of life" will be the largest  
yield for a number of years. From  
Chattanooga county we have flattering  
reports of the crops, and also from  
Polk county Etowah and Cherokee  
counties, Alabama, will make better  
crops this year than they have since  
the war. The cotton is looking well  
and growing finely. We have  
heard of several bowls open—Home

**DELMA, ROME & DALTON R.R.**  
CHANCE OF SCHEDULE.  
On and after Thursday, June 2nd, 1870, until further notice, trains of this road will run as follows:  
Mail Train from South at 4:45 p.m.  
Mail Train to North at 8:21 a.m.  
TRI-WEEKLY FREIGHT TRAIN.  
Arrives from South, Mondays, Wednesdays and Fridays, at 4:30 p.m.  
From North, at 4:30 a.m.  
R. G. BARNES, Supt. and Agt.  
Asst. Supt.  
Jno. A. DeArman, Esq., Insulated upon our table the champion pepper pool of the season. If we were to tell how large it is, nobody would believe a word of it.  
We have now in the Republican office an ear of corn and wheat equally divided. Each prong of the tassel has been first corn then wheat and then corn again. This curiosity was cut from the tassel of Mr. Seymour at the foot of the hill leading North from town.  
The Jacksonville Amateur Dramatic Corps will play "Phantom" and "Toujours" about the 1st of September. The proceeds will be donated to charitable objects.  
Mr. Robert Johnson, left with us last week a quantity of the Hartford Profile variety of grapes. While the Isabella and other varieties in his fine Vineyard have been touched with the rot, the Hartford are perfectly sound. This seems to be the variety most suited to this country and climate.  
We invite attention to the advertisement of Jno. A. Bargain, Manufacturer of Monuments, Tombstones, &c., Tallahassee, Ala. Mr. Bargain was among us last week soliciting orders. We found him to be a steady business man, and his references were the very best to be had in Tallahassee. He puts up elegant work and the difference in freight between his works and other localities, gives him a large advantage in this market. Send him your orders.  
The August number of the Electrician is on our table. It contains a beautiful engraving of Louis XIV. in costume as a naval officer. It is one of the best and cheapest magazines of the country. Price \$5 a year. Address: E. B. Pollock, Publisher, 105 Fulton St., New York.  
We have received a very interesting book of 100 pages, entitled "St. Louis the future Great City of the World," published by order of the St. Louis County Court. It is filled with matter relating to St. Louis. There can be no doubt that St. Louis will in future be the largest city in the United States.  
We have been favored by Mrs. W. W. with some specimens of her new raised in her garden this year. They are very large, fine and of superior quality. These are of the silver variety, very white, of mild and delicate flavor, raised from buttons purchased of Dr. Francis' Drug Store. The seeds of these weigh one pound, and differ over two pounds. Four others, different varieties, red, yellow and white, raised from the seed, with one and two ounces. It is worthy of notice that these fine specimens were raised in place of ground which had only been used two years as a garden.  
Some time back, a company of gentlemen composed of geologists, civil engineers &c., formed at Montgomery, Ala. State sanction, and Capt. W. P. Hankins was appointed Chairman of the expedition. He will leave for Europe, in some time, some time anticipated, and to the present war between France and Prussia. On return he will bring only such parties as are provided in ample means to settle at once on lands of their own choice, recommended by them by his agents. He will also give over-land and female servants for profitable parties wishing them, and applications for such should at once be made through his agents. He will bring with him any thing practical and useful, and any other commission entrusted to him. All parties having land and other property for sale, will do well to communicate with his agents so as to enable them to show or give a choice to purchasers when brought over. His agents in this section are:  
L. W. Grant, Jacksonville, Ala.  
Jno. H. Francis, Tallahassee, Ala.  
A. D. Bailey, Cross Plains, Ala.  
Attention is invited to the new advertisement of E. L. Woodward & Sons. They desire to sell low and the well known reputation of that old house justifies in the assertion that they will sell low. Every salesman in the house is instructed "Ed" John and "Lich" are exceedingly clever and attentive and they will take particular pleasure in showing their cheap Summer Dress Goods to the ladies. Now is the time for bargains in these articles, and E. L. W.'s Sons, have the goods in the greatest profusion. Give them a call, every-body.  
We have been laying off for two weeks "spread" much on our recent visit to Rome, but the exciting events which were crowded in upon us, to the monopolists of the season, have so far prevented. Now it is too late for anything fresh, but we will rest content with the memory of only three of the most agreeable of our visit; and of those a walk through the "Book Establishment" and talk with Henry A. Smith, the present Mayor, stands most prominent. The supply of everything in his line is immense, and his collection of Chronographs is magnificent. It will pay any lover of the art to go to Rome, if for nothing else, and to take a look at his picture gallery. And to take these advantages is most obliging and generous man of business, and you will find his establishment as complete, as

can be told though really not as perfect as it is. It is only surprising that our people do not order from him; rather than from New York and elsewhere. He can furnish anything in his line at the same prices and at less trouble to the buyer.  
The second best attraction is the magnificent jewelry store of Jos. E. Veal. It is all he has advertised to be; you may for he is a very moderate man and he tells not half the attractions his stock really possesses. We commend him to you for he has the very engagement ring beautifully engraved, that fits the finger of your betrothed—to you young married 'un for he has the very set of Silver Ware &c., that pretty little duck of a wife has been patiently looking for you to make—to you married and settled, for he has everything in the shape of table ware, and the odd is about gone you know. We believe Mr. Veal in his advertisement embraces almost every thing, and all the rest of the family. Certain it is that his stock is sufficiently large and diverse to meet the wants of the whole race.  
But the most substantial of the three things which most attracted us was the magnificent Flouring Mills of J. J. Cohen, which we had the pleasure of visiting and examining. The splendid working of the machinery in all its parts, gave us additional evidence of the superior knowledge Mr. Cohen must possess in the arrangement and selection of the newest and finest improvements of Milling Machinery. The flour turned out was of a superior and high grade, and surpassed anything of the kind we had ever seen.  
The Nucleon Minutists have twice favored our citizens with rare exhibitions for the benefit of the fire company, each time drawing a crowded house. We had the pleasure of being present at each exhibition, and on both occasions enjoyed a real good old hearty prolonged laugh, worth several "cents." The young men made very "dinky" XVth Amendments—such as would have brought before the war, from \$1000 to 1500 easily. We have never, except among professionals, seen anything to equal them. And in the award of the set of jewelry to Miss Jennie Frank as the prettiest and most tastefully dressed lady in the audience, they exhibited as much gallantry and appreciation, as skill in the execution of their several characters.  
In behalf of the young lady complimented and the audience so handsomely entertained, we return thanks to the Nucleon.  
Attention is invited to the advertisement of Swift, Byrne and Ehrhart, Cotton Factors and Commission Merchants, Selma, Ala. The various members of this firm are well known in this section as attentive and prompt business men and our people could do no better than to store with them.  
The letter of "Hank" from Chattanooga arrives too late for publication. We shall fully yield it space next week.  
Attention is invited to the advertisement of the School Superintendent. He has more money.  
Read the Calhoun College advertisement. It is of interest to every subscriber to the first.  
See the advertisement of Huntsville Female College. This institution has been in former times largely patronized from this place, and therefore its merits are well understood. We hope to see it again well patronized.  
Treatments at the Lyceum.—The Hungarian system is the only one which has the power to dissolve, remove and cure tubercles on the lungs. It is a general remedy, and we have the most complete and conclusive evidence to sustain the assertion that it is the direct and immediate effect.

The Trichina spiralis of Pork Worm.  
Perhaps it is not generally known that the much talked of trichina spiralis, or pork worm, was first discovered in America by Dr. C. C. Kendall, Philadelphia, Pa., with that American instrument known as the Craig Microscope, costing only \$2.75, after repeated failures to discover the worm with an imported microscope, costing \$25, of higher power and less reliable! This fact, Dr. Kendall stands ready to prove at any time. The Craig Microscope is now for sale with full directions is mailed anywhere for \$2.75, by E. H. Ross, 212 Locust St., St. Louis, Mo.

A WONDERFUL MICROSCOPE.  
Rev. David Wier, D. D., editor of the New York Sunday School Advocate, thus speaks of the celebrated Craig Microscope:  
"Its simplicity, cheapness, and great magnifying power struck me with surprise. Then I was examining a fly's eye by its aid, and was struck with wonder at skill and power of the Creator which is displayed in its structure. When I saw a statement in an advertisement that the Craig Microscope was an advertisement of one hundred dollars and could be bought for \$2.75, I thought it was one of the hours, for I had paid \$25 for a microscope not long before. But now I find it to be a really valuable instrument which I should like to see introduced into the families of our readers in place of the costly and useless toys which are sold for an hour and then destroyed. This microscope would both amuse and instruct them and I advise every boy and girl who wishes to know the wonders which lie in little things to save his money until he has \$2.75, which will pay for the microscope and the postage when sent by mail.  
As a holiday gift this microscope is unsurpassed, being ornamental, instructive, amusing and cheap, and never loses its interest. Agents and dealers are supplied on terms. A sample will be mailed, post paid, to any address for \$2.75, by E. H. Ross, 212 Locust St. St. Louis, Mo. June 25, 2nd.  
WELCOME.—We take much pleasure in calling the attention of our readers to the advertisement of English Female Bitters, in another column.  
This combination is regarded as the Great Female Medicine of the age, and is highly recommended by the Medical Profession, and all who have tested it.  
Our female community are troubled with many complaints peculiar to their sex, and now is the time to secure a bottle, and be cured.  
A SCIENTIFIC WONDER.—The CRAIG MICROSCOPE adapted to popular and scientific use. Read advertisement, Price, \$2.75.
